Central Baltic Programme 2014-2020

Launch events October-November 2014

Helsinki | Mariehamn | Stockholm | Riga | Tallinn

EUROPEAN UNION
European Regional Development Fund

Priority 1

Competitive economy of the Central Baltic Region

Contacts	Organisation	Project idea/ problem to be addressed	Desired partners	Description of partners
Attending Helsinki Launch Event:				
Annamaija Id-Korhonen annamaija.id-korhonen@lamk.fi	Lahti University of Applied Sciences	The usage of wellbeing technology/ digital services/ mHealth promotes added value for clients of social and health care companies.	Sweden	Cluster of technology companies or wellbeing companies or higher education institution.
Kati Peltonen kati.peltonen@lamk.fi	Lahti University of Applied Sciences	The usage of wellbeing technology/ digital services/ mHealth promotes added value for clients of social and health care companies.	Sweden	<i>For more information, be in touch with the contact person.</i>
Pekka Komu pekka.komu@ladec.fi	Lahden Seudun Kehitys LADEC Oy	<i>For more information, be in touch with the contact person.</i>	Estonia Latvia Sweden Åland	Development agencies, universities etc.
Sauli Eerola sauli.eerola@muovipoli.fi	Muovipoli Ltd	Bio-based materials and composites in manufacturing and building industries.	Estonia Finland Latvia Sweden Åland	Companies, technology centres, research organisations etc.
Suvi Aho suvi.aho@metropolia.fi	Helsinki Metropolia University of Applied Sciences	Entrepreneurship in social and wellbeing sector, generation transition.	Estonia Sweden	<i>For more information, be in touch with the contact person.</i>
Tiina Reijonen atireou@gmail.com	Atire OU	Baltic & Nordic B&B chain or chain of private own minor hotels and accommodation units jointly sales & marketing promotions on target markets outside Baltic & Nordic.	Estonia Finland Latvia Sweden Åland	Private own minor accommodation units through local tourist offices & development companies.
Timo Metsä-Tokila timo.metsa-tokila@ely-keskus.fi	Varsinais-Suomen ELY-centre	<i>For more information, be in touch with the contact person.</i>	Estonia Latvia Sweden	<i>For more information, be in touch with the contact person.</i>
Tuija Hirvikoski tuija.hirvikoski@laurea.fi	Laurea	<i>For more information, be in touch with the contact person.</i>		<i>For more information, be in touch with the contact person.</i>
Tuovi Kurtio tuovi.kurtio@kierratyskeskus.fi	Helsinki Metropolitan Area Reuse Centre Ltd	To create a workshops cluster, network which gives artisan entrepreneurs more secure working environment, and same time keeps low-value items (which in other case may end up in landfill or to be burnt) in the economic circulation by increasing the value of goods.	Estonia Finland Latvia Sweden Åland	Reliable
Attending Mariehamn Launch Event:				
Hanna Hagmark-Cooper Hanna@sjofartsmuseum.ax	Åland Maritime Museum	Urban re-generation. A community project involving stakeholders from cultural, commercial and municipal organisations/ businesses resulting in a vibrant portside "sailor town" in the western harbour of Mariehamn for the benefit of local population and the tourism industry.	Estonia Finland Sweden	Other people with experience of managing re-generation projects involving several different stakeholders and run as community projects, or people involved in similar enterprises.
Magnus Krantz magnus.krantz@visitaland.com	Visit Åland	<i>For more information, be in touch with the contact person.</i>	Sweden	<i>For more information, be in touch with the contact person.</i>
Ralf Häggblom ralf.haggbloom@atc.ax	Ålands Teknologicentrum	Waste handling and processing, energy generation.	Estonia Finland Latvia Sweden Åland	Research institutions agriculture and environment; process engineering for waste handling and processing, energy generation.
Attending Stockholm Launch Event:				
Anders Bengtson anders.bengtson@motala.se	Motala kommun	Development of entrepreneurship through youth entrepreneurship, international exchange and cooperation between education and industry.	Finland Åland	Municipalities, businesses and schools interested in young entrepreneurship.
Andy Metcalfe andy.metcalfe@regionuppsala.se	Uppsala Regional Council	<i>For more information, be in touch with the contact person.</i>	Estonia Finland Latvia Åland	Regional development officers.
Anne Närhi anne.narhi@resursuppland.se	Resurs uppland	Business ideas based on innovations.	Finland Sweden Åland	Gender, network.
Annikka Lepola annikka.lepola@hamk.fi	HAMK International Business	Entrepreneurial Ecosystem - enhancing entrepreneurial activity and the collaboration between educational institutes and business-life.	Estonia Latvia Sweden	Entrepreneurial active partner universities; Business companies, institutes and societies interested in university and business-life collaboration in entrepreneurial field.

Emina Radetinac emina.radinac@lansstyrelsen.se	Länsstyrelsen Östergötland	Woman business and innovation development.	Estonia Finland Åland	<i>For more information, be in touch with the contact person.</i>
Ilmo Larvi ilmo.larvi@cursor.fi	Cursor Oy	<i>For more information, be in touch with the contact person.</i>	Estonia Finland Latvia Sweden	<i>For more information, be in touch with the contact person.</i>
Jessica Hallros jessica.hallros@tillvaxtmotala.se	Tillväxt Motala AB/Motala kommun	Development of SMEs and sustainable destinations within Nature tourism and Bicycle tourism; Digital development of the traditional consumer trade competing with e-Commerce.	Finland Åland	Municipalities and business development company responsible for the development of industry and destinations with potential for nature tourism and digitalisation.
John Gunnarsson john@europeanminds.com	European Minds	We are an EU consultancy firm, so there is no particular project idea.	Estonia Finland Latvia Sweden Åland	Organisations that will be applying for projects in the future.
Maria Svensson maria.svensson@soderhamn.se	Municipality of Söderhamn	To exchange knowledge between SMEs. Enhance cooperation. Broaden networks.	Finland Åland	Business networks, municipalities.
Marianne Ahvenranta marianne.ahvenranta@cursor.fi	Cursor Oy	We don't have a concrete Project idea yet, but we're interested in promoting international business and investments especially from Russia.	Estonia Finland Latvia Sweden Åland	All kinds.
Mikael Larsson mikael.larsson@scandinavianislands.com	Scandinavian Islands	Tourism development.	Finland Sweden Åland	<i>For more information, be in touch with the contact person.</i>
Rolf Gydemo rolf.gydemo@lansstyrelsen.se	Länsstyrelsen/ Gotland County Administration	Develop small scale coastal fisheries by better use of the resources and marketing of products.	Estonia Finland Latvia Sweden Åland	Fishing industry. National and international marketing.
Sergejs Gaidukovs sergejs.gaidukovs@rtu.lv	Riga Technical university	Integration of environmental risk and benefit in the production and use of nanotechnologies, nanomaterials and products incorporating different nanomaterials.	Estonia Finland Sweden Åland	<i>For more information, be in touch with the contact person.</i>
Sven Rassl sven.rassl@hamk.fi	HAMK University of Applied Sciences	How family owned SME can utilize E-learning in succession management. How can E-learning be used to transfer knowledge in companies confronted with generation change?	Estonia Latvia Sweden	Partner universities for common research & development projects; Municipalities to participate research & development project; Family owned SME.
Tea Laitimo tea.laitimo@kehy.fi	Imatra Region Development Company	<i>For more information, be in touch with the contact person.</i>	Estonia Latvia Sweden	Other business development companies or other organizations interested in regional development.
Timo Ylikangas timo.ylikangas@kinno.fi	Kouvola Innovation Oy	Project proposal concerning game industry and incubators.	Estonia Latvia Sweden Åland	Incubators, education, companies, development agencies, technology parks.
Urban Joelsson urban.joelsson@ftamanagement.se	Handelskammaren Mälardalen	Business coaching of internationalization.	Finland Latvia Åland	<i>For more information, be in touch with the contact person.</i>
Attending Riga Launch Event:				
Alise Vitola alise.vitola@rtu.lv	Riga Technical University	Smart work (telework) facilitation in regions based on the experience of Interreg IVC project Micropol. Smart Work Centre in Non-metropolitan Areas (http://micropol-interreg.eu/).	Finland Sweden Åland	Municipalities, regions, NGO
Anda Paegle anda.paegle@gmail.com	Know-How LAB	<i>For more information, be in touch with the contact person.</i>	Estonia Finland Sweden Åland	<i>For more information, be in touch with the contact person.</i>
Anita Skutane anita.skutane@jelgavasnovads.lv	Jelgava Local Municipality	Development of social entrepreneurship.	Estonia Finland Sweden	Any
Anna Builo-Holme anna.builo@zpr.gov.lv	Zemgale planning region	<i>For more information, be in touch with the contact person.</i>	Estonia Finland Sweden	<i>For more information, be in touch with the contact person.</i>
Baiba Tormane baiba.tormane@gmail.com	Bauskas Centrālā bibliotēka (Biznesa atbalsta bibliotēka)	Project idea is to build business support library to create innovative business centre environment for different groups of society: existing entrepreneurs, potential entrepreneurs, distance work experts, self-employed, unemployed persons, pupils, students and teachers.	Finland Sweden	Business centres, distance work centres (smart work centres) and related to this theme.

Evita Lukina evita@ozolini.lv	Annas Ozolini	<i>For more information, be in touch with the contact person.</i>	Estonia Finland Latvia Sweden Åland	Experiential learning trainers looking for special venue for their events. Joint projects in the field of sustainable development, ecology, organic farming.
Inga Brieze inga.brieze@rpr.gov.lv	Riga Planning Region	Promotion of spa and resort areas/ products/ opportunities/ sustainable use of natural resources: muds etc. Increasing quality and competitiveness of wellness and resort services.	Finland Sweden	Health tourism clusters/ spa, wellness providers/ spa, wellness competence centres/ resort municipalities.
Kristine Berke kristine.berke@adazi.lv	Adazu Regional Municipality	Development of cluster or regional business development centre for regional companies to get contacts with Estonian, Swedish and Finnish entrepreneurs for joint activities (such as learning new skills, improve professional skills, networking, professional practice etc.).	Estonia Finland Latvia Sweden	Clusters, business incubators, regional municipalities, NGO's.
Lilita Sparane lilita.sparane@itbaltic.com	Latvian IT Cluster	Development of common innovation ecosystem in the region.	Estonia Finland Sweden	Clusters, business incubators, innovation agencies etc.
Nadežda Venceviča nadezda.vengevica@dobeleva.lv	Dobeleva Municipality	Local home compounders' product development.	Estonia Finland Sweden Åland	Municipality and other organisation.
Vika Dubaņeviča vika@b2bservice.info	B2B Serviss Ltd.	Development of ecological active and passive firefighting products; Innovative technologies development of Siberian Larch plank processing and bio-refinery of wood residue into valuable end products.		We are looking for investors and partners for R&D.
Zane Zeibote zane.zeibote@gmail.com	University of Latvia	Cluster development in the CB region.	Estonia Finland Sweden Åland	<i>For more information, be in touch with the contact person.</i>
Attending Tallinn Launch Event:				
Kristina Tauts ktauts@gmail.com	Comenius OÜ	Our projects are related to sustainable development and main focus is on biotechnology.	Estonia Finland Latvia Sweden Åland	Co-researchers (technology development and implementation experts incl.) fundraisers, good marketing specialist, investors, etc. - all who believe in "green" future and have strong interest in progress and necessity of biotechnology.
Mare Ellen mare.estonia@gmail.com	Eurohouse NGO	<i>For more information, be in touch with the contact person.</i>	Finland Sweden Åland	Municipalities, small harbours, social entrepreneurship developers.
Margit Keeman rohelohe@gmail.com	Rohelohe OÜ	Drone services development.	Finland Latvia Sweden	<i>For more information, be in touch with the contact person.</i>
Mika Perttunen mika.perttunen@cursor.fi	cursor.fi	Renewed industry grow-up and start-up entrepreneurship projects.	Estonia Finland Latvia Sweden	Development companies.
Piia Vettik-Leemet piia@biopark.ee	EDCBM	EDCBM engages in close cooperation with Estonian and foreign companies, scientific institutions and innovation support organizations in order to create research-industry partnership synergies. Our park is open for co-operation that will develop business skills and opportunities, also help to bring scientific research results and innovative ideas into business.	Finland Latvia Sweden Åland	Business incubators, universities, techno and science parks, consultancy companies.
Sven Ratasapp pel@investinpaldiski.ee	Paldiski Association of Entrepreneurs	Developing various logistics and energy projects (inc. large) in Paldiski region.	Estonia Finland Latvia Sweden Åland	<i>For more information, be in touch with the contact person.</i>
Vaido Mikheim vaido@sciencepark.ee	Tartu Science Park	Support of start-ups & SMEs with a focus on prototyping and early-stage product & business development.	Finland Sweden	Business development organizations or start-up/SME ecosystem stakeholders.
Vassili Golikov vassili.golikov@paldiski.ee	Paldiski City Government	Cross border cooperation and capacity building of business companies, also using new technologies sorting our environmental questions and developing transportation/ logistics, sharing experience and implementing good practices what can be valuable for all.	Estonia Finland Latvia Sweden	Interested in business development projects between Paldiski and Sweden and/ or Finland.

Priority 2

Sustainable use of common resources

Contacts	Organisation	Project idea/ problem to be addressed	Desired partners	Description of partners
Attending Helsinki Launch Event:				
Achim Drebs achim.drebs@fmi.fi	Finnish Meteorological Institute	Detecting and monitoring of extreme weather events in urban areas.	Estonia Finland Latvia	National weather services, municipality administrations and research institutes.
Antti Ojala antti.ojala@vtt.fi	VTT	New materials/ composites/ products using bio-based and/ or recycled material sources.	Estonia Finland Sweden	Material producers, end-users, designers, research institutions.
Jaana Kekkonen jaana.kekkonen@helsinki.fi	Novia	Strengthen management and use of wildlife to guarantee the sustainability of livelihood in the Central Baltic regions (sustainable hunting and hunting tourism + non-consumptive use of wildlife).	Estonia Finland Latvia Sweden Åland	We have a group of partners from Finland, Sweden and Latvia already but we are interested in finding more potential partners or collaborators especially in the field of tourism but also on wildlife management.
Jarmo Määttänen jarmo.maattanen@meltron.fi	MTG-Meltron Ltd.	Led-technology in luminaries and environment.	Estonia Finland Sweden	Public sector, municipality and technical universities.
Juhani Talvela juhani.talvela@kyamk.fi	Kymenlaakso University of Applied Sciences	Heat transfer networks and technologies; Innovations and IPR research; Marine, coastal and arctic wind power; Bioenergy and torrefaction.	Estonia Latvia Sweden Åland	Research partners to add value to the topic. Businesses and decision makers.
Kaj Granholm kaj.granholm@slu.se	Swedish University of Agricultural Sciences (SLU)	Rural water management across farm and the landscape.	Estonia Finland Latvia Sweden Åland	Local and regional actors that could potentially be driving forces in local water management projects, active farmers or their representatives, technicians, spatial planners.
Kirsti Cura kirsti.cura@lamk.fi	Lahti University of Applied Sciences	Resource efficiency, applied R&D.	Estonia Latvia Sweden Åland	Universities, regional development companies, SMEs.
Leena Tuomi leena.tuomi@posintra.fi	Posintra Oy	Business development.	Estonia Finland Latvia Sweden	<i>For more information, be in touch with the contact person.</i>
Maria Lindén maria.linden@tapio.fi	Metsätalouden kehittämiskeskus Tapio	Tapio consulting services provide solutions for efficient and sustainable forest management and bio economy. Tapio provides services both for public and private sector. We have long experience in developing sustainable forest management and look for partners in projects concerning ecosystem services, development and education.	Estonia Finland Latvia Sweden Åland	We have experience in EU-financed projects and we look forward to discuss cooperation with partners both from Finland and abroad.
Marianne Fred marianne.fred@novia.fi	Novia UAS	Sustainable hunting and hunting tourism.	Estonia Åland	<i>For more information, be in touch with the contact person.</i>
Minna Keinänen-Toivola minna.keinanen-toivola@samk.fi	Satakunta University of Applied Sciences	Water	Estonia Finland Latvia Sweden Åland	<i>For more information, be in touch with the contact person.</i>
Päivi Sieppi paivi.sieppi@lahti.fi	City of Lahti, Lahti Region Environmental Services	Interested in natural and cultural resources developed into sustainable tourist attractions and better urban planning.	<i>For more information, be in touch with the contact person.</i>	<i>For more information, be in touch with the contact person.</i>
Saara Vauramo saara.vauramo@lahti.fi	City of Lahti	Renewable energy platforms and new water efficiency and water design concepts in urban land use areas.	Estonia Finland Latvia Sweden Åland	Municipalities, research organisations, educational sector, cleantech companies.

Attending Mariehamn Launch Event:					
Erica Scott ericas@aland.net	Axentum Ab	The project idea is to develop and implement supporting cross-border structures for cooperation on how to work strategically from a systems perspective towards creating a sustainable Baltic region by 2051.	Estonia Finland Latvia Sweden Åland	Business, government, NGO's.	
Laura Lehtonen laura.lehtonen@metsa.fi	Metsähallitus	Improvement of services in harbours and in actions of local business in order to better utilize National Parks and to offer better service for travellers. One aim is to increase the volume of high quality services in the archipelago in order to attract more visitors.	Estonia Sweden	Governmental, communes, universities etc.	
Attending Stockholm Launch Event:					
Gen Larsson gen@kth.se	KTH	Wastewater treatment.	Estonia Finland Latvia Åland	<i>For more information, be in touch with the contact person.</i>	
Gunaratna Kuttuva Rajarao gunar@biotech.kth.se	KTH-School of Biotechnology	Water and wastewater treatment technologies and waste management.	Sweden	Industries, applied aspects.	
Jonas Nilsson jonas.nilsson@gotland.se	Region Gotland	Water management at the landscape level in islands.	Estonia Finland Latvia Åland	County and municipality administration, farmer organizations, conservation organizations.	
Karin Karlsson karin.karlsson@nrm.se	The Swedish Museum of Natural History	Continuation of BalticDiversity project.	Estonia Finland Latvia	Biological institutions, Natural History Museums, SME IT development companies, NGOs.	
Katrin Jones Hammarlund katrin.hammarlund@naturskyddsforeningen.se	Swedish Society for Nature Conservation, Stockholm branch	The aim of the project: effective and permanent collaboration; a shared vision on how to sustainably manage large green areas so that they on long term provide; good living environment for the inhabitants of the city region; high biodiversity; maintained ecosystem services; maintained natural and cultural values.	Estonia Finland Latvia Sweden	Municipalities, Regional planning authorities, NGOs, research centres and other actors involved in sustainable city development.	
Martti Komulainen martti.komulainen@turkuamk.fi	Turku University of Applied Sciences	Ecosystem services in urban planning in cities.	Estonia Latvia	Cities, universities.	
Paula Biveson paula.biveson@bsag.fi	Baltic Sea Action Group	Nutrient recycling, focus on agriculture.	Estonia Latvia	Partners with knowledge of agri-environmental feasibility assessment, solutions for manure/sewage waste handling etc.	
Pirjo Räsänen pirjo.rasanen@lamk.fi	Lahti University of Applied Sciences	The objective of the project is to design green well-being services by combining flexible service design and systematic social research analysis. The project aims at developing nature-based well-being service concepts and turning them into attractive and accessible service brands. This is to be achieved by bringing a more user-oriented innovation culture to the tourism industry through the use of participatory co-design methods and diverse expertise. Furthermore, the project seeks to produce both new innovative service concepts and to document a new operational model/ approach for cross-sector service design in green well-being.	Sweden	Regional tourism organisations with contacts to rural tourism companies and nature areas, universities.	
Rolf Gydemo rolf.gydemo@lansstyrelsen.se	Länsstyrelsen Gotland/ Gotland County Administration	Sustainable use of marine resources and Development of coastal fisheries and communities.	Estonia Finland Latvia Sweden Åland	Fisheries sector, research, regional and business development and marketing.	
Sofia Bastviken sofia.bastviken@lansstyrelsen.se	Länsstyrelsen Östergötland	Based on the newly launched method Density Sorting Dredging, remove large amounts of nutrients from eutrophic lake sediments and seabeds in the Baltic Sea, that could serve as a future supply of fertilizer to agriculture or for land cover use.	Estonia Finland Latvia Åland	Local and regional authorities and universities.	
Maria Åslund maria.aslund@lansstyrelsen.se					
Thomas Hjelm thomas.hjelm@utposten.se	AB Utposten	Development of production equipment for producing vegetables and fish.	Estonia Finland	<i>For more information, be in touch with the contact person.</i>	
Tomas Bergkvist tomas.bergkvist@orebro.se	Örebro municipality	<i>For more information, be in touch with the contact person.</i>	Estonia Finland Latvia	Actors who can take actions i.e. municipalities and counties.	
Tove Adolfo Lilja tove.lilja@sweco.se	Sweco	Reuse-oriented sanitation approaches in coastal areas.	Estonia Finland Latvia Åland	Municipalities (rural and coastal regions), farmer unions.	

Attending Riga Launch Event:

Alise Gedgauda alise.gedgauda@riga.lv	Riga City Council Housing and Environment Department	Cooperation project regarding implementation of certain activities of Air Quality and/or Noise Reduction Strategies (Strategic documents) in Baltic State countries.	Estonia Finland Sweden	Authorities on local and regional level responsible for spatial planning/ implementation of activities within project topic.
Anita Laime laimesslotas@gmail.com	Natural History Museum Support Society	Environmental education, nature protection.	Estonia Finland Latvia Sweden Åland	Museums, nature centres, nature schools.
Dagnija Lazdina dagnija.lazdina@silava.lv	Latvian State Forest Research Institute Silava	Additional environmental and Agriculture benefits from SRC - as first flowering plant for apiculture, as vulnerary plants, besoms and raw material for biochemical compounds production.	Estonia Finland Latvia Sweden Åland	We are research institute - any kind of partners are welcome from business and from research sector.
Girts Ieleja girts.ieleja@limbazi.lv	Limbazi district municipality	Natural and cultural resources, developed for sustainable tourism places.	Estonia Finland Sweden	Local and regional municipalities, tourism associations.
Girts Strazdiņš girts.strazdins@ldf.lv	Latvian Fund for Nature	Project connected to nature conservation and sustainable management.	Estonia Finland Sweden Åland	NGO, municipalities, other sectors.
Inara Cukura inara.cukura@gmail.com	Environmental Guides Association	Environmental education, nature protection, environmental interpretation.	Estonia Finland Latvia Sweden Åland	Environmental centres, nature schools, nature museums, nature and tourism information centres, national parks etc.
Inese Baumane inese.baumane@jelgavasnovads.lv	Jelgava local municipality	Cultural heritage restoration and integration of tourism.	Estonia Latvia	Local government, which has owned the manor.
Ingrīda Bremere ingrida.bremere@bef.lv	Baltic Environmental Forum - Latvia	Complex assessment of climate policy measures based on use of different forms of biomass. Evaluation on public acceptance and socio-economic feasibility.	Estonia Finland Sweden	Research institutes, industry associations.
Ivita Germane ivita.germane@daba.gov.lv	Nature Conservation Agency	Bring together and develop a network of non-formal and formal educators in field of environment. So, environmental education for all target groups as a uniting tool for the development of North Vidzeme Biosphere reserve.	Estonia Latvia Sweden	Environmental NGOs, small, green thinking enterprises, educational networks etc.
Janis Kleperis janis.kleperis@riga.lv	Riga City Council Housing and Environment Department	Cooperation project regarding implementation of certain activities of Air Quality and/or Noise Reduction Strategies (Strategic documents) in Baltic State countries.	Estonia Finland Sweden	Authorities on local and regional level responsible for spatial planning/ implementation of activities within project topic as well as scientific centres.
Karīna Mielsone karina.mikelsone@adazi.lv	Ādapi local municipality	Flood protection, Water management facilities; Tourism infrastructure.	Estonia Latvia Sweden	With experience and with similar needs.
Kristīne Dreija kristine.dreija@gmail.com	Association of Latvian Landscape Architecture	To promote the field of Landscape architecture in Latvia.	Sweden Åland	Professional organizations
Larisa Abelīte larisa.abelite@riga.lv	Riga City Council Housing and Environment Department	Environment Cooperation project regarding implementation of certain activities of Air Quality and/or Noise Reduction Strategies (Strategic documents) in Baltic State countries.	Estonia Finland Sweden	Authorities on local and regional level responsible for spatial planning/ implementation of activities within project topic.
Margarita Apine Margarita.Apine@gmail.com	Biedrība "Zaļā skola"	Research of good practice cases of adaptation to climate change and transfer of knowledge among countries in form of videos, film and website. Information sharing of good practices in outdoor learning practices and opportunities in different countries.	Estonia Finland Sweden Åland	Organizations working on education and public awareness raising on environmental issues, especially on climate change and outdoor learning.
Raitis Sijats raitis.sijats@gmail.com	Vidzeme Tourism Association	<i>For more information, be in touch with the contact person.</i>	Estonia Finland Sweden	<i>For more information, be in touch with the contact person.</i>
Sandra Smona projekti@lnbiedriba.lv	Latvian Society of the Blind	To create mobile health care service for people with visually impairment.	Estonia Finland Latvia	Societies of the Blind people. Environmental accessibility organizations. Doctors associations.
Shabayeva Dilara dilara@videsattistiba.lv Karlis Maulics dilara@videsattistiba.lv Dilara Shabayeva dilara@videsattistiba.lv	Environmental Development Association	Efficient, sustainable and innovative uses of micro and macro algae in the Central Baltic Region.	Estonia Finland Sweden Åland	<i>For more information, be in touch with the contact person.</i>

Attending Tallinn Launch Event:

Alan Tkaczyk alan@ut.ee	University of Tartu	Cooperation in Baltic Region on Energy and Environmental issues.	Finland Latvia Sweden Åland	Industrial partners, academic institutions.
Alla Shogenova alla.shogenova@ttu.ee	Institute of Geology at Tallinn University of Technology	To increase public awareness in the field of climate change mitigation options and sustainable use of environment including surface and underground options. Synergy between renewable energy options, CO2 capture and geological storage and exploitation of fossil fuels as well as synergy between different underground use (gas/energy storage, CO2 storage) while giving priority to groundwater use are the main aspects of the new approach. For this purpose a new course for University students should be developed with common background for all participating countries and national case studies from every country. During the project time summer schools for students could be organized. Educational brochures for schoolchildren, students and general public could be developed. The main result of the project is preparation of the new generation informed about sustainable options for using of energy, land and underground resources of the region in order to implement such approach in all participating countries/ regions.	Finland Latvia Sweden Åland	University partners including geological, energy and environmental departments.
Gholamreza Anbarjafari sjafari@ut.ee	IMS Lab, University of Tartu	The proposed project will monitor the environment in Baltic region and also will help to control the natural disaster such as flood and fire in the countries which have common cost with Baltic sea. The main purpose of this project is to keep the environment and ecology of Baltic region clean from pollution and natural disaster which will affect directly on the humans' life in Baltic region.	Finland Latvia Sweden Åland	Experts in environmental science and flood analysis are required to be partner.
Kai Künis-Beres kkunnis@gmail.com	National Institute of Chemical Physics and Biophysics, Laboratory of Environmental Toxicology	To work out special for the Baltic Sea ecotoxicological tests based on bacterial, algal and zooplankton species isolated from the Baltic Sea - brackish water.	Finland Latvia Sweden Åland	Strategic, regulation and research institutions.
Kati Orru kati.orr@ut.ee	University of Tartu	Improving practices of environmental health risk (air quality, noise, climate change) mitigation and adaptation through integrated urban planning.	Estonia Finland Sweden	Local authorities, environment and health specialists.
Kristo Tõnissoo kristo@peak.ee	Pärnu Business Development Centre	Regional sustainable development indicators project to determine baseline levels.	Estonia Finland Latvia Sweden	<i>For more information, be in touch with the contact person.</i>
Merle Laager merle@meremuuseum.ee	Estonian Maritime Museum	The project aims to map, to analyse and to apply the new extraordinarily rich scientific information (from Salme boat burials) in a way which corresponds to current Scandinavian approach to pre-Viking and Viking ages, while developing it by adding a bulk of new evidence and analysis from Estonia. This would create attractive, unique, modern and find-based material basis for entirely new tourist attraction and exhibition hall at Estonian Maritime Museum. The project will develop a new visitors-oriented pool of knowledge about Swedish-Estonian Viking heritage, and offers it in multiple languages in Seaplane Harbour, Tallinn.	Sweden	Swedish Maritime Museum, Saaremaa Museum.
Rein Vaikmäe rein.vaikmae@ttu.ee	Institute of Geology at Tallinn University of Technology	Sustainable management of groundwater in the Baltic area.	Estonia Finland Latvia Sweden	In Estonia and in Latvia business partners in groundwater management field. In Finland and in Sweden research partners.
Sanna Jokela sanna.jokela@varsinais-suomi.fi	Regional Council of Southwest Finland	Despite several tourism related projects and development activities, Central Baltic region tourism still lacks behind in taking full advantage of modern technology and open data. A comprehensive database for regional data about services, events, nature and cultural heritage sites should be developed.	Estonia Sweden	Tourism related, specialist in open data & GIS.

<p>Tiina Titma tiina.titma@kbfi.ee</p>	<p>National Institute of Chemical Physics and Biophysics</p>	<p>Development of in vitro tests according to The 3 R's principle (replacement, reduction, refinement) of in vivo tests on mammalian cell lines for risk assessment of the environmental agents by ecotoxicological testing according to the EU Directive 2010/63/EU and others.</p>	<p>Estonia Finland Latvia Sweden Åland</p>	<p><i>For more information, be in touch with the contact person.</i></p>
<p>Tiit Kallaste tiit.kallaste@seit.ee</p>	<p>SEI Tallinn Centre</p>	<p>Biogas generation from organic wastes with further upgrading to bio methane for transportation fuel. Kyoto flexible mechanisms (Emissions Trading and Joint Implementation) implementation at local level. Third period of EU ETS applications in Baltic Sea region countries.</p>	<p>Finland Latvia Sweden Åland</p>	<p>Mostly research and development institutions.</p>
<p>Toomas Vaimann toomas.vaimann@ttu.ee</p>	<p>Tallinn University of Technology</p>	<p>Electrical Machine Group of Tallinn University of Technology, Estonia is focused on the design, calculations, optimization and development of electrical machines used in a variety of applications. Key research topics include investigation of novel permanent magnetic materials for use in electrical machines; design and development of permanent magnet generators for wind or small hydro applications; investigation and development of life-cycle based design and optimization methodologies of electrical machines and electric motor drives.</p>	<p>Estonia Finland Latvia Sweden Åland</p>	<p><i>For more information, be in touch with the contact person.</i></p>
<p>Veiko Karu veiko.karu@ttu.ee</p>	<p>Tallinn University of Technology</p>	<p>Mining and environmental issues. How to find best solutions for undermined areas? How to use infrastructure after mining area closure? Also Educational issues.</p>	<p>Estonia Finland Sweden</p>	<p>Universities, enterprises, local government developing centres etc.</p>
<p>Ülo Kask ulo.kask@ttu.ee</p>	<p>Tallinn University of Technology</p>	<p>Appraisalment of food waste for traffic fuel in residential, service and food industry sectors. The potential of food-related sectors needs studying to select out most rational form of food waste usage.</p>	<p>Finland Latvia</p>	<p>Educational and R&D Facilities.</p>

Priority 3

Well-connected region

CONTACTS	ORGANISATION	PROJECT IDEA/ PROBLEM TO BE ADDRESSED	DESIRED PARTNERS	DESCRIPTION OF PARTNERS
Attending Helsinki Launch Event:				
Esa Hämäläinen esa.hamalainen@utu.fi	University of Turku	Logistics, transportation, maritime transportation. Natural tourism development - High tech like ICT solutions in transportation.	Estonia Finland Latvia Sweden Åland	SMEs, universities.
Helka Kalliomäki helka.kalliomaki@utu.fi	University of Turku	Sustainable transport in the Northern Growth Zone.	Finland Sweden	Universities and other research organizations, cities, regions.
Mervi Nurminen mervi.nurminen@kyamk.fi	Kymenlaakso University of Applied Sciences	Oil spill response training programme for the employees of the Rescue Services. Goal of the project is to improve operational response capability for major marine oil spill incidents by establishing a comprehensive training programme for Rescue Services in Finland.	Estonia Latvia Sweden	We are looking for partners to the project consortium, who is interested in academic research of the topic or has interest against same kind of piloting or training at their own coast or region.
Attending Mariehamn Launch Event:				
Kasimir Antbrams antbrams@gmail.com	Högtek rf	Test out ducted fans for optimal noise reduction (for electrical powered ducted-fan regional aircraft/ 30 seats); Try out various battery technologies, to get idea of max travel distance and charge times needed; Look into most modern avionics systems.	Estonia Finland Latvia Sweden	Partners with know-how in battery technology; Partners with know-how in electrical steering and monitoring systems (avionics).
Pekka Räisänen pekka.raisanen@turkuamk.fi	Turku University of Applied Sciences	<i>For more information, be in touch with the contact person.</i>	Estonia Finland Latvia Sweden Åland	Nautical schools, Medical schools
Attending Stockholm Launch Event:				
Lelde Ābele lelde.abele@vidzeme.lv	Vidzeme Planning Region	Transport on demand provides a response for serving areas that are sparsely populated, newly settled, isolated or undeserved by local transport networks.
